Buidling an igloo ③

Our professional constructor Herbert shows us how to build a robust igloo. Equipped with a shovel you stamp out equal blocks of snow. Afterwards the blocks are placed on top of each other row by row until we reach the top. When the remaining gaps are filled with some more snow, the igloo is ready to move in.

Slow Food

Cooking with the cooking box

3

Cooking in the cooking box is a particularly gentle and energy-saving method of preparing food. Agnes Lemmerer has been teaching this traditional cooking method for many years. The old tradition brings stored food to the table in winter. In January, roots are cooked into a menu with Styrian root meat, in March, grain is processed into a stew with an Alpine ox.

DATES

January 16th, 2020 Styrian root meat
March 12th, 2020 Alpine ox

Hiking in the living room of wild animals

1

Our environment is the natural habitat of a lot of wild animals - also in the winter. In the Sölktäler you are able to enjoy the unique nature, the mountains and the amazing view in comparison the wild animals have to develop strategies to survive the cold and long winter. How do they do this? Where do they stay? What can we do to make the survival easier for them?

GUIDES

WEGES OG

Silvia Sarcletti & Mag. Elisabeth Zienitzer

<https://www.weg-es.at>

„What is slow food at dinner is snowshoeing for winter sports. You go to the mountains and in yourself.“

The new trend sport „snowshoe hiking“ offers a lot of exercise in nature, even away from the big winter skiing areas.

The company Weges is a young and innovative company with many new ideas for activities in the mountains for everyone. For example the two owners of the company have launched the snowshoe festival, which is taking place for the third time this year, or have written the first Rother snowshoe hiking guide. Their tours are perfectly prepared and organised and they provide the latest equipment.

In the Sölktäler Nature Park you can take part in two snowshoe tours if you want to get to know the mountains off-piste in winter.

REGISTRATION until the day before the event takes place under +43/3685/20903

PRICE 25 € per person (includes snow shoes and avalanche protection devices)

1

Would you like to try something other than just skiing? How do you get to the mountain on skis in winter? What do you need to know and be able to do?

Gabi Holzinger introduces you to the techniques of ski touring. Sweeping and walking are practiced in easy, unprepared terrain. The use of safety equipment in the open alpine area is also introduced. Our goal is not a summit but only the playfully practiced use of the equipment, some turns on the slope should be inside. It is not necessary to conquer a certain amount of altitude. The equipment necessary for ski tours (touring skis, skins, shoes) can be rented in the sports shop Mandl-Gröbming. The equipment required for safety in unsecured terrain is provided by the nature park.

TOURS:

- Hike to the Gumpenalm (break at the Schönwetterhütte)
- Hike to the Sölkpass (break at the Hansenalm)

If you have your own avalanche equipment (beep, shovel, probe), please let us know when you register.

If the weather or snow conditions are extremely unfavourable, the event will be cancelled the day before.

Our ski tour tip for advanced skiers

The Sölktäler are not only among the most beautiful and attractive ski touring areas in Styria, the quiet side valleys are also an insider tip for true tour connoisseurs.

Endlich Ruhe.

Once the nature puts into hibernation, silence returns to the data Söltkäler and the perfect time for ski tours, snowshoeing and cross-country skiing has come. Enjoy the snowy winter forest, deep blue sky, the sparkling ice crystals on the streams and the crunching of the snow. On the Advent stalls smells of fresh gingerbread, roasted chestnuts and mulled wine and the lovingly decorated windows of the old sacristan-house shine in a special light Advent calendar. Winter holiday, as gently as he could be.
